

GROOVE DOCTOR BOB

Need a prescription for Vitamin B: Boogie and Blues? Groove Doctor Bob can provide the medicine.

By day, a successful ophthalmologist. On weekends, a Blues musician having discovered Blues and Soul since his early teens. Hailing from the Gold Coast Australia, Groove Doctor Bob's sound echoes Memphis Soul and Blues, Southern US Boogie and Aussie Garage Band Rock n' Roll.

Having previously gigged in San Diego, Barcelona and Mississippi, Groove Doctor Bob is now very 'GC', showing the scene what he can do with a band or as a 3 piece. Having debuted at his own festival, Groove Dr Bob with his new band The BFG's (The Blues'n Funk'n Groovers), Groove Doctor Bob has showcased his solo material at other music festivals and live venues.

Bob enjoyably continues writing more original material. Having the opportunity to express his distinctive sound in the studio and on stage allows the listeners to walk and dance away with rhythmic evidence of his ability and musical gravitas.
